

A modern bathroom interior featuring a white freestanding bathtub on the left, a wicker basket with a white liner in the center, and a dark grey vanity with a white sink and a black faucet on the right. A large window with a black frame is on the left, showing greenery outside. A round mirror is mounted on the wall above the vanity.

Building for the future!

Function meets
passion

The bathroom design of tomorrow

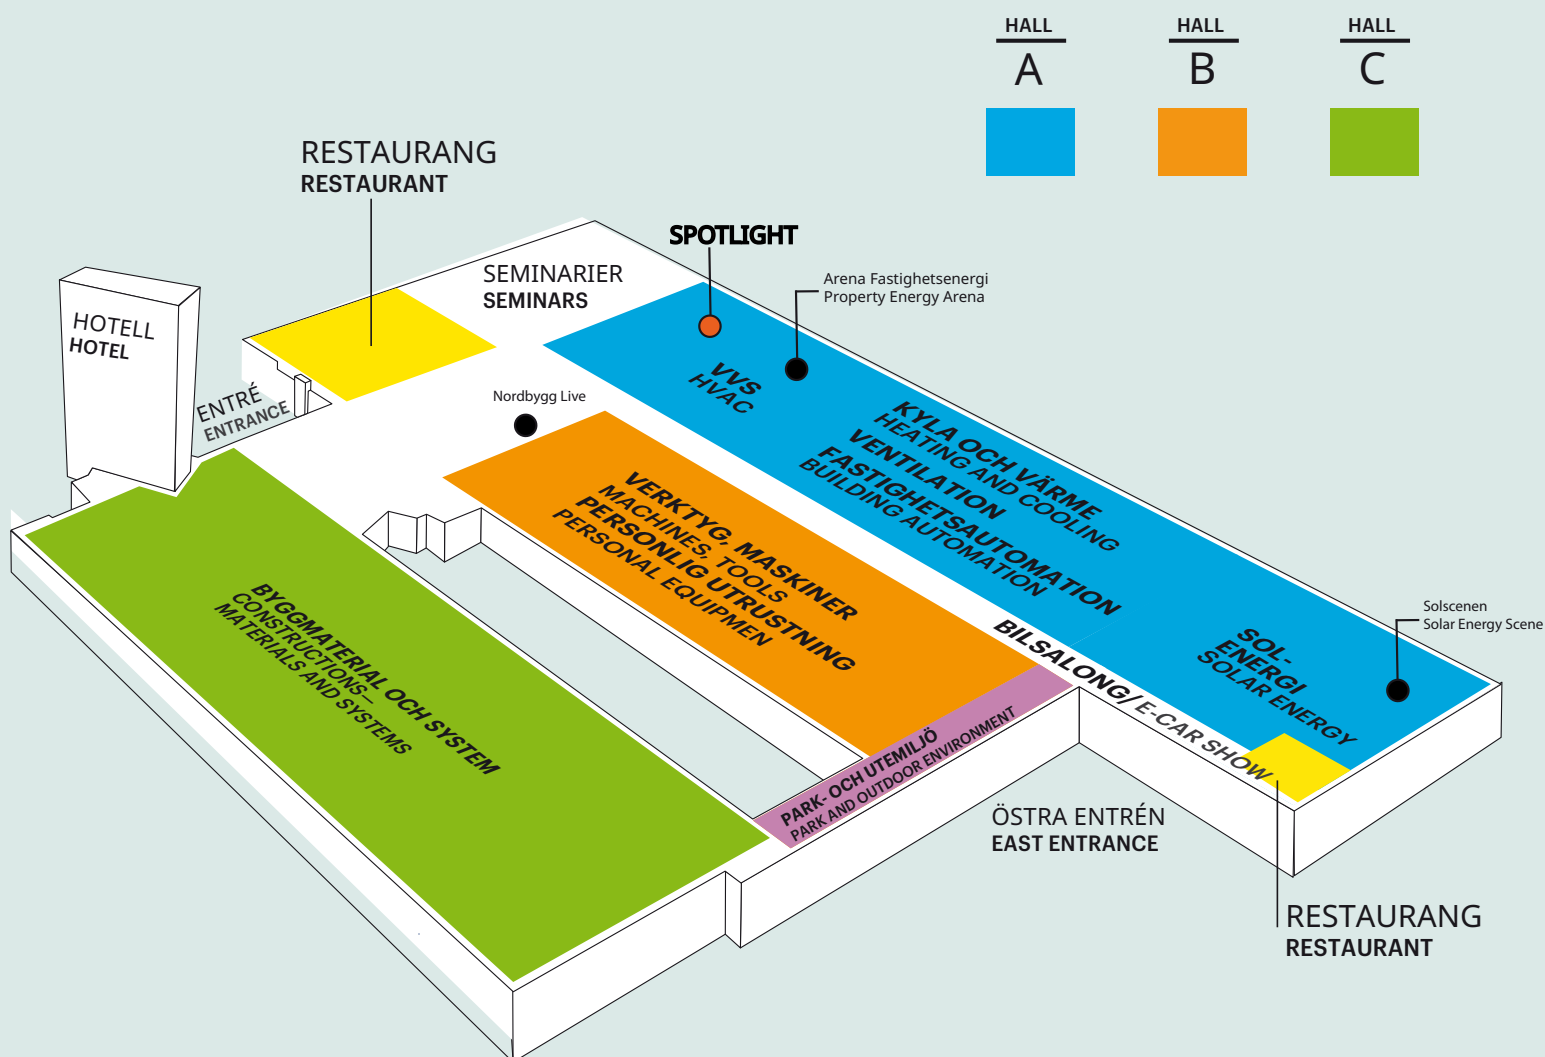

A curated area that brings together the design giants with the construction industry's most innovative solutions.

This is where everyone shaping the future of bathrooms – architects, consultants, clients, buyers and installers – comes together.

SPOTLIGHT: Design

Central location at the front of Hall A

Turnkey concept

- House (12 sqm) with three stable walls that can withstand tiling and mounting of sanitary ware
- Possibility to install electricity in the walls for, e.g., bathroom lighting

- Choice of interior wall color plus carpet
- For the exterior, three glossy colors to choose from, designed to complement each other so all houses are unique yet form a cohesive whole

- Built-in OctaLumina wall at the top of the short side. (1x3 m lightbox with backlit banners on both inside and outside, printed according to customer's material)

- Marketing banners in the area
- Opportunity to host networking events in the area after fair closing, at no extra cost – first come, first served

- A meeting room available throughout the week
- Targeted marketing and activations in the area towards clients and specifiers
